TINTA RASPADITA PLATA (Silver RASPADITA Ink) Code ID. 4108

The RASPADITA SILVER INK was developed to print on polyethylene laminate.

It is recommended to use a 75 # mesh to achieve the desired coverage power.

It has a 24 hour drying time and is diluted with turpentine or REDUCTOR 140 (REDUCER 140).

IMPORTANT: Non-adherence must be verified on the substrate after 24 hours drying.

IMPORTANT NOTE

- I. The inks formulated by Pintesint SAICYF must be used exclusively with the solvents and the complementary products that it manufactures for that purpose. Due to the diversity of products in the market, the company is not responsible for the use of the same from another source.
- II. The suggestions and data of this literature were elaborated in good faith, to guide the user. We recall the importance of checking the adaptability of inks and complementary products by testing before starting production. Due to the fact that the conditions of use of the products are not under our control, the present does not constitute a guarantee on the work to be done.
