MATERIAL SAFETY DATA SHEET (MSDS)

HEALTH: 1
FLAMMABILITY: 1
REACTIVITY: 1

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name: SCREEN PRINTING EMULSION FIXER.
Trade Name: FIJADOR DE EMULSIONES
(EMULSION FIXER)
Code: 9811
Colour: Colourless
Manufacturer name: PINTESINT SAICyF
RONDEAU 1200 RAMOS MEJIA (1704)
BUENOS AIRES ARGENTINA
TELEPHONE: (54-11)4654-0060 FAX: (54-11)4656-1098
info@pintesint.com

2. COMPOSITION / INFORMATION ON INGREDIENTS

Glyoxal: 1 % - 2 %
Isopropyl alcohol: 45 % - 55 %
Water: 45 % - 55 %

3. HAZARDS IDENTIFICATION

MAIN RISKS

Avoid contact with the body and mucous membranes.

GENERAL HEALTH EFFECTS

The possible health effects of this product are based on the hazards associated with its ingredients. The use of this product in combination with other products may produce cumulative effects on health. Caution labels and material safety data sheets used with this product should be reviewed before use.

Eyes

It causes irritation and in cases of major exposures can produce blurred vision

SKIN

May cause irritation and dermatitis.

INHALATION

Inhalation may cause mild irritation, coughing, breath difficulty.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE

Pregnant women and people with medical conditions should consult their doctor before using this product. Repeated and prolonged overexposure and / or individual sensitivity may increase the risk and level of adverse health effects.

4. FIRST-AID MEASURES OF ASSISTANCE

EYES

Wash eyes for at least 15 minutes. Remove contact lenses if it can be done easily. If irritation persists, obtain medical attention.

SKIN

In case of contact, immediately wash skin with soap and plenty of water for at least 15 minutes while removing contaminated clothing and shoes. It is suggested to use cold water at first to prevent the pores of the skin from opening. This will minimize the area and time of contact with the skin. Then warm water can be used to ensure that all contaminants have been removed. The skin should be controlled for possible redness or chemical burns. It is suggested to use a mild soap so as not to damage the skin and thus prevent the chemicals from penetrating the pores during cleaning. Obtain medical attention if irritation persists or significant contact has occurred. Wash clothing and shoes thoroughly before reusing.

INHALATION

Move person to fresh air and keeping in a semi standing position. If not breathing, give artificial respiration or oxygen by trained personnel. Obtain medical attention immediately if there is difficulty breathing.

INGESTION

Drink plenty of water, induce vomiting. Get medical attention.

5. FIRE FIGHTING MEASURES

NON-COMBUSTIBLE

In case of fire keep containers cool by spraying with water.

6. ACCIDENTAL RELEASE MEASURES

Remove all sources of ignition (flames, hot surfaces and electrical, static, or frictional sparks). Avoid contact with the product and inhalation of vapours. Ventilate the area.

Contain spill and dispose of with an inert absorbent. Use non-sparking tools to put the material in a suitable container (no metal container) to dispose of. Isolate the risk area and deny entry to unnecessary and unprotected personnel.

7. HANDLING AND STORAGE

Use adequate ventilation, if possible in combination with good extraction. Do not eat or drink during use. Keep away from metals and oxidizing agents; Store in environments below 35 ° C (95° F) and with very good supply of air. Stack in areas refrigerated, dry and protected from sunlight. No smoking. Keep containers tightly closed in a well-ventilated place.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Wear eye and face protection. Wear protective clothing and appropriate gloves (neoprene or nitrile rubber). Use adequate ventilation, combined with good extraction. Be exposed as little time as possible. Wash hands before taking a break or leave work. Put on separate work clothes.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State:	Colourless liquid.
Specific Weight:	0.98 ± 0.02 Kg/dm ³
Solubility:	Soluble in water
Flash Point:	Non-combustible

10. STABILITY AND REACTIVITY

CHEMICAL STABILITY

Stable: under recommended storage and handling conditions.

CONDITIONS TO AVOID

High temperatures, heat sources and contact with oxidizing agents and metals.

11. TOXICOLOGICAL INFORMATION

Frequent or continuous skin contact causes irritation and possible dermatitis.

12. ECOLOGICAL INFORMATION

No experimental data available on this product. Keep product away from sources or watercourses.

13. DISPOSAL CONSIDERATIONS

Follow municipal, provincial and national legal regulations for the elimination of sub-products and waste.
Recommendation: Incinerate. Contaminated containers may be used after cleaning.

14. TRANSPORT INFORMATION

General:	NON-COMBUSTIBLE
Transport Classification:	9
United Nations Number:	1170

15. LEGAL INFORMATION

16. OTHER INFORMATION

No additional information

This information only refers to the product mentioned above and should not be valid for other product (s) or for any process. The information is, according to our best correct and complete knowledge. It is provided in good faith but without guarantee. It remains the responsibility of the user that this information is appropriate and complete for the special use of this product.

IMPORTANT NOTE

- I. The inks formulated by Pintesint SAICYF must be used exclusively with the solvents and the complementary products that it manufactures for that purpose. Due to the diversity of products in the market, the company is not responsible for the use of the same from another source.
- II. The suggestions and data of this literature were elaborated in good faith, to guide the user. We recall the importance of checking the adaptability of inks and complementary products by testing before starting production. Due to the fact that the conditions of use of the products are not under our control, the present does not constitute a guarantee on the work to be done.
