**SERICOR PP
SERIE 7500**

It is a solvent-based, high-performance, fast-drying ink with a gloss finish. In compliance with a high market requirement, Sericor PP is created for the printing of untreated corrugated polypropylene sheets.

APPLICATIONS

In addition to having excellent anchorage over untreated polypropylene, it can be used for other substrates. For **non-corrugated** and **untreated** polypropylene, the Primer Gel was formulated, which is a mordant base of silk-screen application. It is used with very fine meshes to optimize its performance, and its function is to allow the anchoring of other inks, namely: acrylic, nitrocellulose and vinyl.

COMPLEMENTARY PRODUCTS

All the line of Solvents and retarders vinyl are adapted to the Sericor PP.

SPECIFICATIONS

According to the definition required, meshes will be used throughout its spectrum. Drying occurs by evaporation of the solvent and may take from 15 to 20 minutes at the surface level. We advise printing out of contact, with strong and even pressure. Preserved in the container tightly closed, and in a cool place its conditions endure in the time.

RANGE OF COLOURS

Code	Description	Code	Description
7510	White	7540	Varnish
7520	Yellow Lemon	7541	Primer Gel
7523	Yellow Chrome	7552	Red
7531	Fluorescent Yellow Lemon	7553	Carmine Red
7534	Fluorescent Red	7560	Green
7535	Fluorescent Fuchsia	7570	Royal Blue
7536	Fluorescent Green	7572	Ultramarine Blue
		7590	Black

IMPORTANT NOTE

- I. The inks formulated by Pintesint SAICYF must be used exclusively with the solvents and the complementary products that it manufactures for that purpose. Due to the diversity of products in the market, the company is not responsible for the use of the same from another source.
- II. The suggestions and data of this literature were elaborated in good faith, to guide the user. We recall the importance of checking the adaptability of inks and complementary products by testing before starting production. Due to the fact that the conditions of use of the products are not under our control, the present does not constitute a guarantee on the work to be done.
