TINTA ACRILICA (Acrylic Ink)
SERIE 7000

It is a quick drying, low odour and thermoformed ink. It has a glossy finish and high weather resistance.

APPLICATIONS

Due to its thermo-plasticity characteristic, TINTA ACRILICA (acrylic ink) is ideal for printing on acrylic sheets (transparent or opal) ABS, SAN, POLYSTYRENE, rigid PVC and similar behaviour materials.

Due to its high gloss and its resistance to atmospheric agents, TINTA ACRILICA (acrylic ink) is used for the printing of luminous signs and plastic materials for outdoor use (advertising panels, signalling, etc.).

Drying	By evaporation of the solvent, it varies of 10/15 min depending on the solvent that is used and the thickness of the film
Dilution	<u>Normal</u> : Reductor de Viscosidad Universal 145 (Universal Viscosity Reducer 145 Code 9145) or Reductor Vinílico (Vinyl Reducer Code 9602) <u>Slow</u> : Retardador Vinílico (Vinyl Retarder Code 9604) or Súper Retardante Vinílico (Super Vinyl Retarder Code 9605)
Matrices	90/140 threads / cm, depending on the desired definition
Complementary Products	Barniz Acrílico Extra (Extra Acrylic Varnish Code 7040), improves strength, adhesion and gloss. Nivelante (Leveler Code 4801), Retardante Gel (Retardant Gel Code 9616), Retardante 140 (Retardant 140 Code 9140) and Reductor Vinílico (Vinyl Reducer Code 9602) for sensitive materials (e.g. PAI)
Cleaning	Use Reductor Vinílico de limpieza (Vinyl Cleaner Reducer (Code 9600) or Reductor Vinílico Universal (Universal Vinyl Reducer Code 9145).

Range of colours

Code	Description
7010	White
7020	Yellow Lemon
7022	Medium Yellow
7023	Yellow Chrome
7040	Vinyl Varnish Extra
7052	Industrial Red
7054	Magenta
7056	Extra Red
7060	Green
7070	Royal Blue
7071	Reddish Blue
7072	Ultramarine Blue
7073	Violet
7080	Brown
7022	Yellow Glossy
7031	Fluorescent Yellow
7032	Fluorescent Orange
7034	Fluorescent Red
7035	Fluorescent Fuchsia
7036	Fluorescent Green
7037	Fluorescent Blue
7038	Fluorescent Violet

IMPORTANT NOTE

- I. The inks formulated by Pintesint SAICyF must be used exclusively with the solvents and the complementary products that it manufactures for that purpose. Due to the diversity of products in the market, the company is not responsible for the use of the same from another source.
- II. The suggestions and data of this literature were elaborated in good faith, to guide the user. We recall the importance of checking the adaptability of inks and complementary products by testing before starting production. Due to the fact that the conditions of use of the products are not under our control, the present does not constitute a guarantee on the work to be done.
